Version Control: Git/GitHub

(Working knowledge of collaborative workflows; experienced in Commits, Pull Requests, Code Reviews, and maintaining clean commit histories).

Virtual Machines Using Hyper-V Manager

PROFILE

Adaptable and detail-oriented Computer Systems Engineering graduate with a comprehensive educational background and hands-on experience gained through a substantive IT internship. Completed multiple self-paced online courses from the Cisco Networking Academy, successfully passing examinations and earning industry-recognized digital badges that demonstrate technical proficiency in networking and IT concepts. A motivated and quick-learning professional committed to continuous learning and staying current with emerging technologies. Demonstrates strong analytical and problem-solving skills, and is eager to contribute to a forward-thinking organization through innovative solutions and effective technical support.
