Profile

Computer Systems Engineering major, with hands-on experience in Postilion, network infrastructure, database management, POS & ATM configurations and intelligent automation through my internship at EFT Corp and Telone. Passionate about cloud computing, AI and ethical digital transformation.

Experience

Telone | Information Systems Intern | FEBRUARY 2024 - APRIL 2024

- Gained hands-on experience in information systems, cloud computing, network infrastructure and IT business analysis.
- Collaborated with cross-functional teams, improving operational efficiency, and enhancing digital solutions through innovative technologies.
- Configured LTEs, ADSL and VoIP lines in the switch using Huawei U2000.
- Provided helpdesk support for customers' queries.
- Initial setup of new customers and the broadband network setup.
- Strengthened skills in information systems, systems integration, information security and IT business analysis.

EFT Corporation | Postilion Engineer Intern | APRIL 2024 – FEBRUARY 2025

- Initial setup of Windows environment, including OS installation and Windows Server configuration in Virtual Machines.
- Installed ACI Postilion products (Realtime/Office/Portal) and other EFT payments solutions.
- Initial setup and administered MS SQL Server databases.
- Provided helpdesk support for customer queries and technical issues
- Project time management using Microsoft Jira support system.
- Gained insight on ATM NCR-84 Self Serv configurations and VeriFone X990 configurations.
- ATM hardware integration (NCR/Wincor/Diebold) and POS hardware integration (VeriFone/Ingenico)
- Contributed to the configuration of CABS deposit taking ATMs using card and cardless transactions.

- Contributed to the CABS active-active mega project through the migration of different entities from the old Postilion environment 4.3 to the new Postilion environment 5.3.

Education

**BSc HONOURS DEGREE IN COMPUTER SYSTEMS ENGINEERING | FEB 2022 – NOV 2025 |
MIDLANDS STATE UNIVERSITY | DEGREE CLASS – 2.1**

Skills & Abilities

- IoT and Cloud Computing (AWS, Azure)
- Communications Network Design
- Database Management
- Training Model using Machine Learning algorithm
- Network Security and Cryptography
- Critical Thinking and Problem Solving
- Collaboration and Communication

Certifications

- Artificial Intelligence Foundations: Machine Learning | LinkedIn Learning
- Cloud Computing | LinkedIn Learning
- Computer Networking | Alison
- Data Science | Mindluster
- Block Chain | Mindluster

Activities and Interests

Chess, Travel, Documentaries
