Energetic, tenacious and goal oriented IT and Electronic Security Support with solid theoretical knowledge in IT. Keen to acquire hands-on experience from a well-established organization to compliment the theoretical knowledge. Committed to professional excellence; a quick learner; proven ability to adapt quickly to change. Strongly self-motivated, enthusiastic with the ability to work independently, and as a team contributor.

WORK EXPERIENCE

✦ IT Intern

Fincheck (Pvt) Ltd - Harare-Zimbabwe

Oct 2022 – August 2023

- Assisted in troubleshooting, diagnosing, and maintaining the existing credit bureau system, developing practical IT helpdesk and support skills
- Contributed to the development of a new credit bureau system by implementing reusable components and supporting problem-solving tasks such as database normalization and data migration
- Set up and administered a GitHub account for the company to enable team collaboration, demonstrating experience with software tools and system administration
- Supported end-users by resolving technical issues and providing guidance on system usage, aligning with IT support responsibilities

EDUCATION

BSc Honours in Computer Science (2.1)

Harare Institute of Technology- Harare, Zimbabwe

August 2020 to June 2024

SKILLS

- **Operating Systems:** Windows (advanced), Linux/Ubuntu (command-line proficient), macOS (familiar)
- **Networking & Security:** TCP/IP fundamentals, CORS configuration, endpoint security concepts, REST API integration
- **Microsoft 365:** Microsoft 365 administration experience (SharePoint, Teams, OneDrive); eager to deepen with formal certification
- **Hardware & Troubleshooting:** IT helpdesk support, system configuration, diagnosing software/hardware issues, data migration
- **Languages & Frameworks:** TypeScript, JavaScript, HTML/CSS, Java, SQL (PostgreSQL); React, Material UI, Spring Boot
- **Developer Tools:** Git, VS Code, GitHub

PROJECTS

Career Path (In progress)

React | Material UI | Springboot | PostgreSQL

1. The web application addresses the issue of students who are unsure of which degree to pursue due to a variety of issues, such as a lack of vocational guidance or results that no longer satisfy the standards of their preferred degree.
2. Based on the cut-off points for each degree, the system filters the student's performance to determine which degrees they can apply for. The pool of degrees comes from Zimbabwe's five major universities: HIT, UZ, CUT, MSU, and NUST.
3. To give students a sense of how in-demand the degree they are considering is, the system also includes a job meter system.
