Professional Summary

An Information Technology graduate with a solid academic foundation and one year of hands-on industrial attachment experience.

Possesses practical exposure to:

- Hardware installation and troubleshooting.
- Network setup and troubleshooting.
- End-user support across multiple locations.
- Software installation, configuration and systems maintenance.
- IT asset register maintenance and inventory tracking.

Currently advancing my networking expertise through Cisco CCNA studies (CCNA1 completed), with working knowledge of TCP/IP fundamentals, subnetting, and routing concepts. Eager to apply my proactive, solution-oriented mindset and technical skills.

Educational Qualifications

- ❖ **National Diploma (Harare Polytechnic (Completed Dec 2025))**
- ❖ **Cisco Certified Network Associate (CCNA) – Ongoing**
 - Successfully completed **CCNA1: Introduction to Networks**.
 - Currently pursuing **CCNA2: Switching, Routing, and Wireless Essentials**.
- ❖ **National Certificate in Information Technology (Completed 2023)**
- ❖ **Moleli High School (O-Level 2016-2019)**

Professional Experience

IT Attachment / Trainee | University of Zimbabwe from January 2025 to December 2025

- **Networking & Infrastructure:** Performed network troubleshooting, configured network switches and Wireless Access Points (WAPs), conducted regular network assessments, and assisted in the setup of a new departmental network.
- **Preventative Maintenance & Reporting:** Conducted regular network assessments to identify potential vulnerabilities proactively; prepared documentation of system performance and incidents to ensure transparency and accountability.
- **Software & Systems Management:** Executed the installation, configuration, and updating of software and operating systems, ensuring compliance with security policies and hardware/software compatibility.
- **IT Asset Management:** Tested and verified new IT equipment, and maintained the company's asset register to ensure accurate tracking and accountability of all hardware.
- **Technical Support & Operations:** Provided dedicated user support for the *Emhare* platform, managed ID printing services, and delivered on-site technical assistance for corporate events and functions.

Key skills and strengths

Networking & Protocols

- CCNA1 certified (TCP/IP, subnetting, routing concepts, DNS, DHCP)
- VPN fundamentals, firewall awareness, switch/WAP configuration
- Network monitoring and diagnostic utilities (familiar)

Systems & Hardware

- Windows OS installation, configuration, and maintenance
- Computer hardware troubleshooting and repair
- Software updates and security compliance

Operations & Reporting

- Daily reporting on system performance and incidents
- Preventative maintenance and proactive problem-solving
- IT documentation and asset register management

Other

- Microsoft Suite, MySQL, MS Access
- Class 2 driver's license

Certifications & Professional Development

- **Cisco CCNA** – Completed CCNA1: Introduction to Networks (2025); currently pursuing CCNA2
