PROFESSIONAL SUMMARY

Experienced IT Support Professional and Systems Administrator skilled in hardware and software troubleshooting, system deployment, and end-user support across retail and healthcare environments. Proven ability to translate complex technical issues into user-friendly solutions, ensuring efficient service delivery and minimal downtime.

TECHNICAL SKILLS

- **Operating Systems:** Windows 10/11 installation, configuration, and troubleshooting
- **Hardware & Support:** PC diagnostics, repairs, Preventive Maintenance, Helpdesk Support
- **Networking:** TCP/IP, Network Troubleshooting, LAN Setup, Router Switch Configuration
- **Cloud & Identity:** Microsoft Azure fundamentals, Azure Active
- **Web Development:** Basic front-end development (HTML, CSS, JavaScript fundamentals)
- **Software & Tools:** Microsoft Office Suite, system utilities, software installation & updates
- **Database & Data Management:** MySQL Database Management, SQL Queries, Excel Data Analysis
- **IT Support:** End-user support, system deployment, and troubleshooting
- **Other Skills:** Collaboration, Communication, Problem-solving, Time Management

WORK EXPERIENCE

TECHNICAL ASSISTANT : Tech360.zw

Nov 2025 - April 2026

- Diagnosed and resolved hardware and software issues, including system slowdowns, boot failures, and peripheral connectivity problems, ensuring minimal downtime for users
- Installed, configured, and maintained operating systems and software applications, including system updates and performance optimization for 5+ workstations
- Provided technical support to end users during setup and configuration of laptops and desktop computers, ensuring systems were fully functional and user-ready
- Installed and configured peripherals such as printers, scanners, and external storage devices, ensuring seamless integration with existing systems
- Performed hardware upgrades and maintenance, including RAM installation and storage replacement, improving system efficiency and longevity
- Configured and troubleshooted TCP/IP networks, including LAN setup and router/switch configurations for over 20 network devices/users.

SYSTEMS ADMINISTRATOR INTERN : Parirenyatwa Group of Hospitals

Jan 2024 - Aug 2024

- Monitored system performance across hospital IT infrastructure, proactively identifying and escalating faults, vulnerabilities, and security concerns to senior system administrators.
- Assisted in maintaining system uptime by supporting routine diagnostics and performance checks on servers and networked systems.
- Performed scheduled system backups, ensuring data integrity and availability; supported basic data recovery operations in case of system failures or data loss incidents.
- Supported network troubleshooting activities, including physical cabling, connectivity checks, and IP address configuration for workstations and network devices.
- Collaborated with senior IT staff to resolve hardware and software issues, reducing system downtime and improving service reliability.
- Documented technical issues, resolutions, and standard IT procedures, contributing to improved knowledge sharing and faster problem resolution within the team.
- Assisted in managing IT inventory, including tracking hardware assets and monitoring software license usage to ensure compliance.

EDUCATION

- Midlands State University : **BCom Honours Degree in Information Systems (Class 2.1)**
- Mabvuku High School : **Advanced Level Certificate**
- Queen Elizabeth Girls High : **Ordinary Level Certificate : 8 subjects Incl Mathematics and English**

CERTIFICATES AND TRAINING

Oracle - **Artificial Intelligence (Level 1)**
