Malbrough, Harare

---

## Summary

Versatile Computer Information Systems graduate with a strong foundation in IT infrastructure, networking, and system administration. Experienced in providing technical support and maintaining high-availability systems in fast-paced corporate environments.

---

## Skills

- **Database Management:** MySQL, Oracle, Microsoft SQL Server.
- **Programming Languages:** SQL, HTML, CSS, Python and R
- **Software:** Microsoft Office (Word, Excel, Access, PowerPoint, Power BI).
- **Backup & Recovery Tools:** Oracle Secure Backup, Data Guard.
- **Communication:** Strong written and verbal communication skills in English.
- **Problem-Solving:** Analytical thinking, troubleshooting database performance issues.
- **Networking:** Knowledge of TCP/IP, DNS, and DHCP

---

## Work Experience

### Junior IT Officer

*MedOrange Pharmacies – July 2025 to Current*

- Manage Microsoft 365 email licenses, user email accounts, and access rights to ensure secure and efficient staff onboarding.
- Implement cybersecurity best practices by deploying and monitoring ESET antivirus and endpoint protection across all company desktops and laptops.
- Provide technical support to staff, diagnosing and resolving issues related to hardware, software, and internet connectivity across all branches.
- Configure and set up ICT infrastructure for new branches, including workstations, printers, and LAN/WAN networking.
- Collaborated with outsourced vendors in installing door access controls for security and attendance recording in branches.
- Maintain a comprehensive and accurate asset register for all ICT equipment, software licenses and peripheral devices.
- Act as the primary internal liaison between MedOrange and outsourced IT vendors to ensure timely support and system enhancements.
- Analyze branch data and generate reports using Excel and Power BI to aid management in decision-making.
- Troubleshooting and reinstalling windows OS on faulty desktops.

### Database Administrator Intern

*Steward Bank Zimbabwe — February 2023 to December 2023*

- Updated daily database monitoring reports using SQL queries and performance monitoring tools, providing key insights to senior management for data-driven decision-making.
- Monitored database environments using MySQL, Oracle, and Microsoft SQL Server, proactively identifying performance issues and ensuring optimal system functionality.
- Restored databases upon request utilizing Oracle and MySQL backup procedures, minimizing downtime and ensuring seamless user experience.
- Utilized Oracle Secure Backup to efficiently ship database backups to tape drives, ensuring secure data storage and compliance with disaster recovery protocols.
- Presented weekly KPI updates on database performance, including system uptime and transaction speed, during IT departmental meetings, leading to improved database efficiency and performance.

- Monitored Oracle Data Guard to ensure disaster recovery readiness, successfully maintaining high availability and data integrity across replicated databases.

---

## Academic Qualifications

- **Master of Science in Big Data Analytics** (Block Release 2025 - Current Studies) – Chinhoyi University of Technology
- **Bachelor of Science Honours in Computer Information Systems** (2.1) — Africa University (2020 to 2024)

---

## Personal Details

- Driver's License: Class 4
- D.O.B: 07/10/2000

---
