.....PROFESSIONAL SUMMARY.....

Highly skilled Software Engineer and ICT professional with a Master's degree in Software Engineering and over 4 years of progressive experience in software development, DevOps, network administration, and systems security. Proven expertise in designing and implementing robust ICT infrastructure, managing CI/CD pipelines, and ensuring comprehensive security protocols. Certified in Cisco CCNA and Oracle Cloud Infrastructure with demonstrated success in leading digitization initiatives, implementing disaster-recovery plans, and optimizing system performance. Adept at translating complex technical requirements into scalable solutions while maintaining a strong focus on quality assurance and business continuity.

PROFESSIONAL EXPERIENCE

Network Support Specialist (Part-time)

(Jan 2025 – Present)

Granary Medical Centre, Harare

- Configure and maintain enterprise security infrastructure including firewalls, anti-virus software, and patch management systems
- Design and implement scalable LAN/WAN network architectures for new medical facilities
- Install and maintain CDMA, GPON, VPN, and VoIP telecommunications equipment ensuring 99.9% uptime
- Configure and optimize Cisco routers and switches for high-performance medical data transmission
- Develop comprehensive technical documentation and security guidelines for HIPAA compliance
- Conduct security awareness training programs for medical staff on protocols and best practices
- Troubleshoot complex server and network security issues with minimal downtime.

Software & Hardware Technician | QA Engineer | Systems Administrator (Part-time)

(Oct 2024 – Present)

Seveni Medical Group, Harare

- Install, configure, and support SQL Server 2012 and 2014 for mission-critical medical applications
- Implement and maintain automated backup solutions for ERP systems and sensitive patient data
- Develop comprehensive test plans, test strategies, and test cases ensuring software reliability
- Perform functional, regression, and integration testing reducing production bugs by 35%
- Design and execute test scenarios covering both functional and non-functional requirements
- Implement and maintain Active Directory services managing 200+ user accounts
- Apply critical security patches, system updates, and upgrades across enterprise infrastructure
- Monitor systems for vulnerabilities using intrusion detection systems and security scanning tools
- Manage antivirus, anti-malware deployments and ensure software licensing compliance
- Configure and troubleshoot desktops, laptops, wireless networks, and printer systems
- Maintain servers, PCs, routers, and switches ensuring optimal performance.

ICT Technician

(Sep 2024 - Jul 2025)

City Parking (Pvt) Ltd, Harare

- Established and administered comprehensive ICT security policies protecting against internal and external threats
- Developed and maintained business continuity and disaster recovery protocols ensuring 24-hour recovery time
- Drafted technical documentation and security guidelines aligned with industry best practices
- Conducted security awareness training programs for 100+ employees on protocols and procedures
- Implemented preventive and recovery strategies minimizing security risk exposure
- Performed regular security audits and vulnerability assessments.

Graduate Trainee

(Sep 2022 - Sep 2024)

City Parking (Pvt) Ltd, Harare

- Managed organization-wide ICT security policies ensuring robust preventive and recovery strategies
- Led digitization initiatives across all departments with emphasis on document security and accessibility
- Performed structured network cable installation and termination following industry standards
- Maintained comprehensive IT asset registers tracking hardware and software inventory
- Coordinated with cross-functional teams to ensure seamless technology integration.

DevOps Engineer

(Feb 2022 - Nov 2022)

Eve-tech Technologies, Harare

- Built and maintained CI/CD pipelines using modern DevOps tools reducing deployment time by 40%
- Automated testing, building, and deployment processes improving development efficiency
- Implemented distributed tracing and monitoring for micro-services architecture
- Established comprehensive logging, monitoring, and alerting systems using industry-standard tools
- Collaborated with development and operations teams to enhance system reliability and performance
- Participated in incident response and troubleshooting of critical production issues
- Analyzed system metrics and performance data to identify optimization opportunities
- Monitored system performance and reliability ensuring 99.5% uptime.

IT Intern

(Jun 2021 - Dec 2021)

City Parking (Pvt) Ltd, Harare

- Created and managed user accounts, network passwords, and access permissions
- Configured new computers and installed operating systems and business applications
- Operated help desk system and managed IT support tickets with 95% satisfaction rate
- Provided technical support for hardware and software troubleshooting
- Administered SMS Help server for internal communication systems.

IT Intern

(Jan 2021 - May 2021)

Level Base, Harare

- Performed repair and maintenance of desktop hardware ensuring minimal downtime
- Conducted software upgrades and system reinstallations following standard procedures
- Maintained LAN infrastructure and internet connectivity for seamless operations
- Developed and maintained disaster recovery plans minimizing organizational risk
- Implemented security measures and access rights for network resources
- Created system documentation and trained new users on IT procedures.

.....EDUCATION.....

Master of Technology in Software Engineering
Harare Institute of Technology
2023 – 2025 Second Class Division

Bachelor of Technology Honors in Software Engineering
Harare Institute of Technology
2018 – 2022 Upper Second Class Division

Certificate in Higher and Tertiary Education
Harare Institute of Technology
2018 – 2022 Distinction

Advanced Level - Mathematics, Physics, Chemistry
Emmanuel High School, Nyanga
2016 – 2017 3 A-Level Passes

Ordinary Level
Emmanuel High School, Nyanga
2012 – 2015 10 O-Level Passes

.....PROFESSIONAL CERTIFICATIONS.....

Cisco Certified Network Associate (CCNA)
2025

Certificate in Mobile Software and Hardware - Ixar Technologies
2023

Oracle Cloud Infrastructure Foundations Certified Associate
2021-2022

.....TECHNICAL SKILLS.....

Programming & Development

C/C++, Python, Java, HTML, CSS, JavaScript, Object-Oriented Design, Software Design Patterns, Agile Methodologies.

DevOps & CI/CD

Continuous Integration/Deployment Pipelines, Automated Testing, Build Automation, Distributed Tracing, System Monitoring.

Networking & Infrastructure

Cisco Routers & Switches, LAN/WAN Design, VPN, VoIP, GPON, CDMA, Network Security, Firewall Configuration.

.....CORE COMPETENCIES.....

- Project Management
- Problem Solving
- Time Management
- Technical Documentation
- Team Collaboration
- Quality Assurance
- Disaster Recovery
- Security Implementation
- Research & Analysis
- Training & Mentoring
- Process Improvement
- Attention to Detail
