Portfolio: tinomukaro.vercel.app

PROFESSIONAL SUMMARY

Computer Science graduate with practical experience in IT support, systems troubleshooting, software development, and hardware/software configuration. Hands-on exposure to user support, system administration support, network troubleshooting, and embedded systems development using Arduino. Passionate about building expertise in IT infrastructure, Microsoft 365 administration, networking, and electronic security solutions through structured graduate training.

EDUCATION

National University of Science and Technology (NUST), Bulawayo

BSc (Hons) Computer Science | 2021–2025

RELEVANT EXPERIENCE

AI / IT Intern — Talent Africa Inc., Harare

Oct 2023 – Sept 2024

- Assisted with installation, configuration, and troubleshooting of hardware and software systems in a live production environment.
- Supported end users with technical issues, account access problems, and software-related incidents.
- Escalated unresolved incidents and documented resolutions following internal IT procedures.
- Worked with system integrations involving APIs, backend services, and automation tools.
- Participated in technical documentation, testing, and weekly reporting.
- Collaborated with cross-functional teams to resolve operational and technical issues.

TECHNICAL PROJECTS

Arduino-Based Embedded Systems Projects

- Built microcontroller-based systems integrating sensors, relays, and automation logic.
- Configured hardware interfaces, performed debugging, and tested system reliability.
- Gained practical exposure to electronics troubleshooting and systems integration.

TECHNICAL SKILLS

IT Support & Systems:

- Hardware/software troubleshooting
- Operating system installation and configuration
- User support and incident resolution
- Technical documentation

Networking & Infrastructure:

- Basic TCP/IP networking
- Network troubleshooting fundamentals
- Remote system support

Electronic / Embedded Systems:

- Arduino development
- Sensor integration
- Circuit debugging
- Basic electronics troubleshooting

Software & Tools:

- Microsoft Office Suite
- Git/GitHub
- Linux
- Docker
- Postman

Programming:

- Python
- JavaScript
- Java

PERSONAL ATTRIBUTES

- Strong problem-solving ability
- Fast learner with adaptability across technical domains
- Attention to detail
- Professional communication skills
- Team collaboration
- Eagerness to learn emerging infrastructure and security technologies

CAREER OBJECTIVE

To develop into a versatile IT and Electronic Security Engineer by applying my technical foundation in real-world infrastructure environments while gaining hands-on experience in enterprise IT systems, networking, and electronic security solutions.
