## Professional Summary

---

Highly motivated and technically versatile IT graduate with a Bachelor of Commerce in Information Technology and Business Management and 1 and half years of industrial hands-on experience in IT support, systems administration, networking, and user support. Skilled in troubleshooting hardware, software, and network issues, with practical exposure to Microsoft environments, system maintenance, and client support. Strong ability to learn quickly, adapt to new technologies, and work effectively in fast-paced environments. Passionate about IT infrastructure, electronic security systems, and delivering reliable technical solutions.

## Core Competencies

---

- Microsoft 365 Administration
- Windows 10/11 Installation and Configuration
- Hardware and Software Troubleshooting
- Networking Fundamentals (TCP/IP, DNS, DHCP)
- Router and Switch Configuration
- Wi-Fi Setup and Maintenance
- CCTV and Electronic Security Systems
- Endpoint Protection and Antivirus Support
- Firewall Fundamentals
- Remote and Onsite Support
- Incident Documentation and Reporting

## Work Experience

---

**HEMS AFRICA ENGINEERING**

**Harare**

**5 January 2022– 18 June 2023**

**IT Support Intern**

- Provided first-line technical support for hardware, software, printing, and connectivity issues across multiple departments.
- Installed, configured, and maintained Windows 10/11 desktops and laptops.
- Assisted users with Microsoft 365 setup, password resets, mailbox configuration, and troubleshooting.
- Supported network connectivity through troubleshooting TCP/IP, DNS, DHCP, Wi-Fi, and router issues.
- Configured printers, scanners, and other peripheral devices for end users.
- Assisted senior engineers during IT infrastructure installations and upgrades.

- Performed routine preventive maintenance on IT equipment to reduce downtime.
- Documented technical incidents, configurations, and support resolutions accurately.
- Delivered onsite and remote user support while maintaining excellent customer service standards.
- Assisted with basic CCTV camera installations and monitoring system configurations.

## Key Achievements

- Maintained accurate records and supported efficient information retrieval processes.
- Reduced recurring user support issues by improving troubleshooting response procedures and documentation.
- Successfully supported over 30+ users with minimal escalation rates.
- Assisted in deploying and configuring multiple workstation setups within tight deadlines.

## Education

| Year      | Qualification                                                                                     | Institution                        |
|-----------|---------------------------------------------------------------------------------------------------|------------------------------------|
| 2020-2023 | Bachelor of Commerce in<br>Information Technology and<br>Business Management (Second Upper Class) | Catholic University of<br>Zimbabwe |

## TECHNICAL PROFICIENCIES

- Operating Systems: Windows 10/11, Basic Linux Knowledge
- Microsoft Technologies: Microsoft 365, Microsoft Office Suite, Outlook Configuration
- Networking: TCP/IP, DNS, DHCP, Router and Switch Basics, Wi-Fi Troubleshooting
- Hardware and Security: Desktop and Laptop Maintenance, Printer Support, CCTV Systems, Basic Firewall and Endpoint Security
- Other Tools: Remote Desktop Tools, Helpdesk/Ticketing Systems

## PROJECTS AND PRACTICAL EXPOSURE

### Office Network Setup Project

- Assisted in configuring small office networking infrastructure including routers, switches, and Wi-Fi access points.
