

FARAI PETER JUNIOR MUSHIPE

IT & Electronic Security Support Engineer | Network & Infrastructure | Cybersecurity

+263 78 093 2494 | mushipefarai01@gmail.com | Bulawayo, Zimbabwe | Available to relocate to Harare

Portfolio: faraimushipe.github.io | Credly: <https://www.credly.com/users/farai-peter-jfarfar/badges>

PROFESSIONAL SUMMARY

BSc (Honours) Computer Systems Engineering graduate (Class 2.1, Midlands State University, 2025) with over 2 years of live, client-facing ICT experience in a regulated financial services environment. Already operating at the level this programme trains toward administering LAN infrastructure, configuring routers and switches, deploying and maintaining IP CCTV systems, managing IP PBX telephony and delivering end-user technical support across multiple sites. Holds multiple Cisco certifications in Network Support & Security and Cybersecurity. A fast learner who thrives in hands on environments, works well independently and is eager to expand into Microsoft 365 administration, Sophos endpoint protection and access control systems through structured professional development at ZHD.

TECHNICAL SKILLS

- **Networking:** TCP/IP, DNS, DHCP, LAN/WAN, MikroTik RouterOS, Ubiquiti, routers, switches, Wi-Fi infrastructure
- **Electronic Security:** IP CCTV installation & configuration (32 Dahua cameras deployed), IP surveillance system maintenance, security monitoring
- **Systems & Hardware:** Windows 10/11 installation & configuration, hardware troubleshooting, component replacement, preventive maintenance
- **Telephony & Communications:** Yeastar IP PBX installation & maintenance, Fanvil IP phones, cPanel email administration
- **Security & Compliance:** Endpoint protection, network security protocols, firewall configuration, cybersecurity compliance in financial services
- **Documentation & Support:** System configuration documentation, incident reporting, IT asset management, remote support (AnyDesk, TeamViewer)
- **Programming & Development:** Python, Java, Android SDK, Botpress, Selenium, REST APIs

PROFESSIONAL EXPERIENCE

ICT, AI & Digital Channel Officer | Inclusive Financial Services

October 2025 – Present

- Administer and maintain LAN infrastructure across multiple branches — configuring MikroTik RouterOS for routing, traffic control, and network performance optimisation.
- Installed, configured, and maintain 32 Dahua IP surveillance cameras across branch sites — handling full deployment from cabling to configuration and ongoing maintenance.
- Maintain Yeastar IP PBX and Fanvil IP phone systems, supporting all internal and inter-branch communications.
- Install, configure, and troubleshoot Windows-based end-user systems, printers, and network peripherals.
- Administer user accounts, corporate email domains, and access controls via cPanel hosting environments.
- Implement and enforce endpoint protection, firewall rules, and network security policies in a regulated financial services environment.
- Perform routine preventive and corrective hardware maintenance, minimising downtime across distributed sites.
- Document all system configurations, changes, and incident resolutions — maintaining accurate, client-ready records.
- Deliver remote and on-site technical support to all branches with a 100% resolution success rate.

IP CCTV & Security Infrastructure Deployment | Inclusive Financial Services

October 2025 – Present

- End-to-end deployment and ongoing maintenance of a 32-camera Dahua IP surveillance system across multiple branch.

AI Trainer | Revelo (Anthropic — Claude AI)

January 2026 – March 2026

- Trained Claude AI on Python using real GitHub issues — evaluating outputs, identifying failure patterns, and iteratively improving model performance using structured feedback (RLHF).
- Produced detailed technical documentation capturing system behaviours and improvement recommendations.

Web Scraping & Data Engineer | MindRift (Toloka)

February 2026 – March 2026

- Built Python automation scripts using Selenium to collect and process large-scale data — demonstrating strong scripting, problem-solving, and independent working skills.

KEY PROJECTS

Software & Network Engineer Intern | Bulawayo Polytechnic

July 2023 – August 2024

- Configured and optimised 15+ MikroTik and Ubiquiti network devices, improving institutional network stability and reducing downtime.
- Provided remote technical support to 50+ academic and administrative staff via AnyDesk and TeamViewer.
- Performed comprehensive hardware/software maintenance, troubleshooting, and repairs across academic and admin systems.
- Developed Android applications and AI chatbots — automating ~70% of common user inquiries.
- Participated in the Presidential Innovation Challenge (2024) and ATUPA Innovation Challenge, Kenya (2024).

Student Shield — Android Safety Application | Lead Developer

September 2023 – March 2024

- Built a community safety app featuring crime mapping, AES-encrypted messaging, and real-time distress alerts.
- **Selected for the** Presidential Innovation Challenge (2024) and ATUPA Kenya (2024).

Project Kushora — AI Agricultural Monitoring | Project Leader

May 2025 – June 2025

- Led a team of 5 to build an AI-powered monitoring system integrating IoT sensors, drones, and satellite data.
- **Top 20 Finalist**, Kutsaga Innovation Challenge (2025).

EDUCATION & CERTIFICATIONS

BSc (Honours) in Computer Systems Engineering

Midlands State University | Graduated September 2025 | Classification: 2.1

Cisco Networking Academy — 7 Professional Certifications (2024–2025):

- Network Support & Security | Junior Cybersecurity Career Path | Cyber Security Threat Management
- Internet of Things & Digital Transformation | Data Science

Credly: <https://www.credly.com/users/farai-peter-jfarfar/badges>

AWARDS & RECOGNITION

- Presidential Innovation Challenge Selectee (2024) — National recognition for technical innovation
- Kutsaga Innovation Challenge — Top 20 Finalist (2025)

- ATUPA Innovation Competition (Kenya, 2024) — International participant
- BeVisioneers: The Mercedes-Benz Fellowship — Global fellowship for innovation leadership
