PROFESSIONAL SUMMARY

Detail-oriented IT graduate and Systems Support Specialist with experience in enterprise systems, user acceptance testing (UAT), revenue assurance, and end-user technical support. Proven ability to log, track, analyse, and resolve system issues across billing and financial platforms. Experienced in supporting system configuration, implementation testing, documentation, and user training. Strong analytical thinker committed to improving business systems and driving user adoption.

PROFESSIONAL EXPERIENCE

Risk Tester – Revenue Assurance (Contract) | Econet Wireless Zimbabwe | Aug 2025 – Present

- Provided first-line system support during UAT and production validation phases.
- Logged, tracked, and resolved system defects using structured issue documentation.
- Analysed billing, mediation, provisioning, and mobile financial systems to identify process gaps.
- Supported system migration from Mobiquity to Huawei, validating financial data accuracy.
- Assisted in implementation testing aligned with business process requirements.
- Prepared issue logs, reports, and compliance documentation.
- Collaborated with IT, finance, and operations teams to resolve system errors and change requests.
- Contributed to post-implementation monitoring and system performance validation.

IT Intern | Tobacco Industry & Marketing Board (TIMB) | Oct 2022 – Dec 2023

- Provided first-level technical support to users across business units.
- Resolved hardware, software, and enterprise system access issues.
- Assisted in configuration and maintenance of Active Directory and email systems.
- Maintained system documentation and troubleshooting guides.
- Supported onboarding and user system orientation sessions.

Freelance Web Developer | JR Tech Solutions Inc | Jan 2024 – Apr 2025

- Developed and maintained business web applications using PHP, Laravel, and JavaScript.
- Integrated APIs and payment gateways while ensuring system security and performance.
- Provided deployments, maintenance, backups, and technical documentation.
