

TAPIWA THERENCE MANDINYADZA

Graduate Trainee — IT & Electronic Security Support Engineer

About Me

Highly motivated and technically driven Computer Engineering graduate trainee with strong foundational knowledge in IT systems, networking, cybersecurity, virtualization, cloud technologies, and electronic security systems. Trained in both computer engineering and CCTV/intruder alarm systems, with practical exposure to Microsoft environments, networking technologies, server management, and IT security principles. Passionate about solving real-world infrastructure and security challenges through hands-on technical work. Known for fast learning ability, professionalism, problem-solving, and adaptability in both IT support and electronic security environments. Currently advancing technical expertise through Level 6 Computer Engineering studies and Cisco Networking Academy training.

Chitungwiza

Skills

- Knowledge of networking fundamentals including TCP/IP, DNS, DHCP, and LAN technologies
- IT Support & Troubleshooting
- Familiarity with Microsoft Windows and Microsoft Office environments
- Working understanding of computer hardware, operating systems, and technical troubleshooting
- Basic understanding of computer security and IT infrastructure
- CCTV systems and Intruder alarm installations fundamentals
- Ability to work independently, prioritize tasks, and perform effectively under pressure
- Strong problem-solving abilities with the capacity to quickly learn and adapt to new technologies, systems, and technical environments.

Language

English Shona

Education

Harare Polytechnic with ABMA Education 2024

Level 3 Certificate in Computer Engineering - Merit:

(i) The Computer, (ii) Principles of ICT System and Data Security, (iii) Customer Care, (iv) Introduction to Networking, (v) Personal Computer Hardware Support

Harare Polytechnic with ABMA Education 2025

Level 4 Diploma in Professional Computer Engineering - Distinction:

(i) Computer Systems, (ii) Computer Security, (iii) Management of Projects, (iv) Networking Technology, (v) Personal Computer Software Support

Harare Polytechnic with ABMA Education 2026

Level 5 Diploma in Professional Computer Engineering - Merit:

(i) Human Computer Interaction, (ii) Internet Server Management, (iii) IT Security Management, (iv) Advanced Networking Technology, (v) IT Virtualisation

Level 6 Diploma in Professional Computer Engineering (IN PROGRESS)

Certifications

(i) Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate with Oracle University (online)

(ii) Intruder Alarm and CCTV Systems certificate (certified at Harare Institute of Technology (HIT))

(iii) Networking Technician Career Path (In Progress) with Cisco Networking Academy (NetAcad)

5 O levels including Mathematics, English and Combined Science with Zimsec Exams

CAREER OBJECTIVE

To build a long-term career in IT infrastructure, networking, cybersecurity, and electronic security systems by contributing technical skills, adaptability, and continuous learning within a dynamic engineering environment such as ZHD Consulting.
