

TALENT NCUBE

TELECOMMUNICATIONS ENGINEERING GRADUATE

Address: Gweru, Zimbabwe.

Phone Number: +263 778 007 070

Email: talentncube2002@gmail.com

LinkedIn Profile: Talent Ncube

Gender: Male.

PROFESSIONAL SUMMARY

Detail-oriented Telecommunications Engineering graduate with a strong foundation in network design, signal processing, and system optimization. Possessing hands-on experience in developing and implementing telecommunication solutions, alongside proficiency in industry-standard technologies and tools. Demonstrated ability to analyze complex problems and provide effective engineering solutions. Skilled in collaborating with multidisciplinary teams to enhance communication systems and improve service delivery. Eager to leverage technical skills and knowledge in a dynamic engineering environment to contribute to innovative telecommunication projects.

EDUCATIONAL QUALIFICATIONS

- ❖ Bachelor of Engineering Honors in Telecommunications Engineering -1st Class {Midlands State University 2025}
- ❖ 3 Advanced Level passes Mathematics, Chemistry, and Physics.
- ❖ 10 Ordinary Level subjects, including Mathematics & English.

CERTIFICATE & AWARDS

- ❖ Awarded Midlands State University Book Prize
- ❖ Cisco Introduction to Cybersecurity | 2025

PROFESSIONAL SKILLS

- ❖ Network Design and Configuration
- ❖ Cybersecurity
- ❖ Python and Graphic Designing
- ❖ Power Systems Basics
- ❖ Proficient with Microsoft Office Suite and Linux (Word, Excel, PowerPoint)
- ❖ Wireshark, Packet Tracer, MATLAB (Basics)
- ❖ Ability to interpret technical manuals and schematic designs.
- ❖ Interpersonal & teamwork skills
- ❖ Commitment to continuous learning
- ❖ Project management skills

EMPLOYMENT HISTORY

Telecommunication Intern: Zimbabwe Electricity Transmission and Distribution Company {ZETDC 2023-2024}

Main Duties;

- ❖ Installed, maintained, and troubleshot multiplexers, SCADA, PABXs and Remote Terminal Units
- ❖ Maintained, tested, and repaired all network equipment, including routers, switches, firewalls, hubs, and backup systems.
- ❖ Supported troubleshooting and maintenance of Power Line Carrier (PLC) systems, microwave links, VSATs, and Ethernet LANs.
- ❖ Performed fiber optic cable termination, splicing (fusion & mechanical), and optical link budget analysis to ensure reliable communication links.
- ❖ Engaged in a full range of customer service activities, including answering technical support questions, taking service requests, and resolving issues.
- ❖ Conducted basic troubleshooting of all network equipment, including cable and hardware configuration, to troubleshoot and resolve network and connectivity problems.
- ❖ Performed software installations, upgrades, and testing.
- ❖ Ensured proper documentation, including service orders, to ensure accurate and timely billing.

IT Consultant: Deificlink Communications {2024-present}

Main Duties;

- ❖ Diagnosed and resolved hardware, software, and network issues, ensuring minimal system downtime and high user productivity
 - ❖ Installed, configured, and maintained LAN/WAN networks, including routers, switches, and wireless access points
 - ❖ Configured and managed network protocols such as TCP/IP, DNS, DHCP, and VPN connections
 - ❖ Performed system installations, upgrades, and maintenance for Windows/Linux environments and end-user devices
 - ❖ Executed structured cabling, wiring, and connectivity setups for reliable network infrastructure
 - ❖ Monitored system performance and implemented preventative maintenance to identify and resolve potential failures early
 - ❖ Maintained accurate technical documentation and reports on system configurations, incidents, and troubleshooting activities
-
