Management, Cloud & Server

### Professional Summary

---

Motivated IT graduate with hands-on experience in ICT support, infrastructure systems, and network troubleshooting. Skilled in deploying and maintaining desktops, servers, and cloud environments, with experience in system monitoring and issue resolution. Strong interest in network infrastructure and IP-based security systems (CCTV, access control), with a willingness to learn and support integrated IT environments.

### Work Experience

---

#### Intern - Axis Solutions

##### December 2023 - March 2025

- ICT Support & Helpdesk Operations Provided first-line technical support to clients, resolving hardware and software issues in a timely manner
- Logged, tracked, and resolved incidents and service requests using structured troubleshooting approaches
- Escalated complex issues to senior engineers while maintaining clear communication with users
- Assisted users remotely and on-site with system and device-related issues

#### Hardware & Software Support

- Installed, configured, and maintained desktops, POS systems, and peripheral devices
- Diagnosed and resolved system errors, connectivity issues, and software failures
- Performed system upgrades, patches, and routine maintenance

#### Infrastructure, Security & Cloud Operations

- Deployed and maintained backend servers, cloud instances, and databases supporting fiscal devices.
- Monitored transaction flow, system health, and connectivity through dashboard tools and custom monitors.

#### Systems & Application Support

- Supported business applications including fiscalisation software and backend systems
- Assisted users with system navigation, usage issues, and troubleshooting
