

TAKUDZWA NICHOLAS BENJERE

Graduate Trainee | IT & Electronic Security Support
Engineer

Harare, Zimbabwe
0780 254 897
takubenjere123@gmail.com

PROFILE SUMMARY

Technically grounded IT graduate with a 2.1 BCom Honours degree in Data Science & Informatics and a year of real-world IT support experience in an operational environment. Comfortable across hardware troubleshooting, Windows system administration, networking fundamentals, Microsoft 365 administration, and endpoint security — and eager to extend these skills into electronic security systems including IP CCTV and access control. Proven ability to work independently, document accurately, and contribute meaningfully on live client environments from an early stage. A fast learner with strong analytical ability and the drive to build a broad, cross-disciplinary engineering skill set.

TECHNICAL SKILLS

IT Support	First-line helpdesk support; hardware & software fault diagnosis, resolution, and escalation
Hardware	Desktop & laptop setup, configuration, repair, and peripheral maintenance
Operating Systems	Windows 10/11 (primary), macOS — installation, imaging, configuration, and troubleshooting
Microsoft 365	User provisioning, mailbox configuration, Teams/SharePoint/OneDrive administration and troubleshooting
Documentation	System configs, incident records, handover notes, change logs — client-ready standard
Programming	Python, SQL, R — scripting, automation, data analysis and reporting
Electronic Security	Keen to develop: IP CCTV, access control, and time & attendance systems (no prior experience — ready to train)

WORK EXPERIENCE

IT Support Analyst Intern | Discovery Ambulance, Harare

Jan 2024 – Dec 2024

- Served as the primary IT support contact for the organisation, providing first-line helpdesk support for all hardware, software, printing, and network issues — maintaining service continuity across the business.
- Installed, configured, and maintained Windows 10/11 workstations, printers, and peripheral equipment, ensuring all user machines were operational and up to date.
- Administered Microsoft 365 accounts across Exchange, Teams, and SharePoint — managing user setup, mailbox configuration, access rights, and staff onboarding.
- Managed endpoint security using Sophos, coordinated routine system backups, and applied patch updates to maintain device protection and compliance.
- Assisted with network setup and maintenance in a live operational environment, applying TCP/IP, DNS, and DHCP concepts alongside Fortinet and Cisco fundamentals.
- Maintained accurate IT documentation including incident records, system change logs, and asset registers to client-ready standard.
- Built and maintained an Odoo-based KPI dashboard, automating operational reporting and tracking 10+ performance indicators for senior management.
- Escalated complex technical issues appropriately while following up to ensure timely resolution and minimal downtime.

KEY PROJECTS

IT Operational Dashboard — Discovery Ambulance

2024

- Designed and maintained an integrated information system tracking real-time operational KPIs; applied independent bug fixes and verified system accuracy after each update — demonstrating the ability to manage technical solutions on live systems with minimal supervision.

Fake News Prediction — ML & NLP (Dissertation)

2025

- Built a supervised machine learning model in Python, applying structured data processing, validation, and analytical problem-solving — reflecting strong scripting and technical reasoning skills.

EDUCATION

BCom Honours — Data Science & Informatics | Midlands State University

2022 – 2025

Degree Class: 2.1 | Relevant Coursework: Networking, Databases, Software Development, Information Systems, Data Analytics, Machine Learning

Bachelor of Software Development (In Progress) | BYU-Idaho (Online)

2024 – Present

CERTIFICATIONS & QUALIFICATIONS

- National Foundation Certificate — Computer Operations & Packages (2019)
- National Foundation Certificate — ICT Fundamentals (2019)

Currently Pursuing:

- Microsoft 365 Administrator Certification

ADDITIONAL QUALIFICATIONS

A-Level: Pure Mathematics & Computer Science

Murewa High School | 2021

O-Level: 11 Passes (incl. Maths, English & Science)

Murewa High School | 2019
