PROFESSIONAL SUMMARY

Information Systems graduate with hands-on experience in IT support, Microsoft 365 administration, network troubleshooting, and IP CCTV systems within multi-branch environments. Skilled in resolving hardware, software, and connectivity issues, with practical exposure to structured cabling, endpoint security, and onsite technical support. Strong problem-solving, communication, and system support abilities.

TECHNICAL SKILLS

Networking: LAN/WAN, TCP/IP, DNS, DHCP, Cisco Routers & Switches, Wi-Fi, Structured Cabling
Systems & Admin: Windows Server, Active Directory, Microsoft 365, User Provisioning, Group Policy, Linux (CLI)
Security & Endpoint: Sophos Intercept X, Patch Management, Firewall (basic), Vulnerability Assessment
Surveillance: CCTV Systems, DVR/NVR Config, Camera Setup, Remote Access (Hikvision, Dahua)
Hardware & Support: Desktop/Laptop Repair, POS Systems, Printers, Freshdesk, Asset Tracking
Database: SQL, MySQL

CORE COMPETENCIES

IT Support & Troubleshooting	Network & Access Control	System Administration	Technical Documentation	Communication

WORK EXPERIENCE

Information Technology Intern | Simbisa Brands | Harare, Zimbabwe Jan 2023 – Mar 2024

- Managed Tier 1 helpdesk operations using Freshdesk, resolving 15–20 network, system and POS incidents daily across 25+ retail branches and head office within SLA.
- Administered Microsoft 365 across the organisation user provisioning, mailbox configuration, licence management and troubleshooting with zero service disruption.
- Installed, configured and maintained surveillance systems including camera positioning, DVR/NVR setup, remote viewing and structured cabling across multiple branch locations.
- Troubleshot LAN/WAN connectivity and maintained Cisco-based network infrastructure including routers, switches, DNS and DHCP
- Configured and maintained desktops, laptops, POS systems (GAAP, Innbucks), printers and peripherals; performed scheduled preventive maintenance across all sites.
- Administered Active Directory user accounts, password resets, permission management and access controls to maintain secure IT operations.
- Deployed and managed Sophos Intercept X endpoints, performed patch management, vulnerability assessments and documented risk findings for mitigation.
- Supported IT rollout for 8+ new branch openings including structured cabling, workstation setup, POS configuration, surveillance installation and go-live support.

PROJECTS

AI-Based PPE Monitoring System | Final Year Project — Midlands State University 2024

- Designed and tested a real-time AI monitoring system using IP camera feeds to detect PPE compliance on construction sites; evaluated detection accuracy and produced detailed technical performance reports.

EDUCATION

Bachelor of Commerce Honours — Information Systems | Midlands State University | Class: 2.1
2024

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Certified in Risk and Information Systems Control (CRISC) — In Progress ISACA	Cisco Networking Fundamentals Cisco Networking Academy — 2023
SQL Associate — Certified DataCamp — 2025	Associate Data Analyst — Certified DataCamp — 2025
