OBJECTIVE

Results-oriented Electronic Engineer with strong experience in telecommunications, hardware installation, and systems maintenance. Skilled in first-line technical support, Windows & network infrastructure management, and endpoint security. Proven ability to translate electronic systems expertise into IT support and infrastructure deployment, delivering reliable on-site and remote client service.

PERSONAL DETAILS

- Date of Birth : 14/05/1998
- Marital Status : Single
- Nationality : Zimbabwean
- Religion : Christianity
- Gender : Male
- Driving Licence : Class BE

SKILLS

- Problem Solving
- Decision Making
- Adaptability
- Team leader
- Work at heights

EXPERIENCE

December 8 2023 -
Till date

- **Technician and Rigger**
Nytel Communication System
 - Designed and commissioned electronic control systems for telecom networks, transferring skills to hardware/software troubleshooting.
 - Managed multidisciplinary installations of solar-battery-rectifier and microwave link systems, enhancing network infrastructure expertise.
 - Conducted fault-finding & performance optimization of electronic & IT equipment.
 - Ensured safety & compliance standards, aligning with ZTE,Huawei ,LTZ ,Netoneand Econet.

14/02/2023 -
28/07/2023

- **Telecommunication Technician Intern**
Telone
 - Provided first-line technical support for hardware, software and network issues in telecom environments, aligning with company.
 - Installed, configured and maintained Windows 10/11 workstations, printers, routers, switches and Wi-Fi infrastructure for field teams.
 - Administered user setups and mailbox configurations in Microsoft 365, troubleshooting email & collaboration issues.
 - Assisted with endpoint protection deployments and firewall settings for secure telecom networks.
 - Contributed to infrastructure deployments & upgrades, including gpon/adsl and access-control systems integration.
 - Performed routine preventive maintenance on electronic & IT equipment, ensuring system reliability.
 - Documented system configurations, handovers and incident resolutions in detailed logs for knowledge transfer.
 - Delivered on-site and remote support to clients, meeting service-level agreements for response & resolution

PROJECTS

- **ZTE ECONET 2024 Modernization PO20 Project Engineering-NYTEL**
RAN (RADIO ACCESS NETWORK) BBU installation Antenna sealing and labeling
Antenna hosting ,RRU hosting ,RRU power hosting and termination also BBU initial
configuration and Alarm checking. VSWR diagnosing. IMW(MICROWAVE LINK
INSTALLATIONS) IDU and antenna installation ,IF hoisting ,antenna alignment ODU
grounding and termination. IDU configurations and IP addresses setting.
- **iENERGY ZTE PROJECT-NYTEL and Elchrome**
 - 1.Battery ,rectifier and ATS installation and configuration.
 2. Parameter setting for iEnergy cycling between solar energy , generator and
mains power.
 3. IP configuration for battery online monitoring .
 4. Concrete hardening for security .
- **ZTE Rural Star Installation- NYTEL**
 - 1.installation of Cabinet , batteries, rectifier solar panels ,BBU , microwave antenna
, RRU and wireless antenna
 2. Configuration of CSU,BBU and
 - 3.connection and cabling of solar panels ,MW and BBU
- **Ceragon and Telgrad LTZ Projects- Telious**
Installation of BreezeCompact3000 .
Ceragon microwave link configuration and alignment
- **Netone Huawei Expansion Project -Afrotel**
Plinth setting and construction.
Installation and configuration cabinet ,BBU , wireless antenna and RRU, Microwave
link .
