

MUNASHE SHELTON NYAMAROPA

CONTACT

 munashenyamaropa10@gmail.com
 0775873231/0719345341
 17 Mukuvisi Drive, Masasa Park, Harare

PERSONAL DETAILS

Gender : Male
Driving Licence : Class 4
National Identity Number : 75-2021368E34

SKILLS

Programming: C, C++, Java
Hardware and embedded systems assembly
Design and simulation tools: Proteus, AutoCAD, Fritzting, MikroC
Troubleshooting, Electrical installation
Problem-solving, teamwork, adaptable
Database design: MYSQL

OBJECTIVE

Motivated Electronic Engineering graduate from NUST, skilled in microcontroller design, electrical installations, C++, Java and troubleshooting. Seeking an entry level role to learn technical skills and contribute to innovative engineering solutions.

EXPERIENCE

<i>August 2023 - July 2024</i>	Instrumentation and Electrical Intern Willowton Group Zimbabwe Assisted in diagnostics and repair of control panels Assisted in diagnostics and repair of machinery Assisted in sensor calibration Assisted in troubleshooting of machinery faults Assisted in electrical installation Assisted in compiling reports Adhering with safety policies Collaborated with electrical and instrumentation department to reduce downtime
<i>February 2026 - Current</i>	IT and Telecommunications Intern Sparklink Tech Network troubleshooting Wifi extension services Starlink installation Smart home solution Optic fibre slicing Router and AP configuration

EDUCATION

<i>2020-2025</i>	Bachelor of Engineering Honours Degree in Electronic Engineering National University of Science and Technology (NUST), Zimbabwe First class (1)
<i>2014-2019</i>	Maths, Physics, Chemistry, Statistics St Faith's High School

PROJECTS

Final year project
Designed and implemented an enhanced automated poultry control and monitoring system with automated feeding, water management, environmental monitoring and intrusion detection. Developed control algorithms in C++.

Willowton's Margarine Plant extension
Connection of motors to VSD's and VFD's. Assisting Booyens team with electrical installations.

Munyati intrusion detection system
Munyati (New Glovers) intrusion detection system. Installation of PTZ cameras and Perimeter Surveillance Terminal at the plant in a ring network extending network using optic fibre to all the points. The system consists of Perimeter Security Radar and Smart AI Video Box connected at every point to improve the system.
